7736B Proprietary Full-Featured Multi-Line Speakerphone

One 7736B included with each DTS1000P system for use on extension 100 as the attendant or operator's phone. It has direct access to all system functions, including voice messaging (optional), one touch access to incoming lines and other extensions, system speed dials, system hold, call transfer, and displays the time and calling extension information on the LCD screen. A 1/8" headphone jack is standard – order our M175C headset option. We can pre-program this phone to your needs and print appropriate button designation cards for easy operation upon request. It is line powered and requires no AC connection or batteries. One year limited warranty.

ITT2203 Ten Memory Single-Line Speakerphone

A lower-cost alternative to a 7736B feature phone when you don't need full access to system functions or a display. Our standard package includes seven of these phones, which can be upgraded to 7736B phones if required. The ten one-touch dialing buttons can be programmed for direct dial to extensions, and direct line access for outgoing calls, or for other system functions as needed. It has a ringing indicator light, and flash, hold, and redial buttons. Includes receiver and speaker volume controls, and a data port that can be used for a telephone answering machine or cordless phone. We can pre-program this phone to your needs and print appropriate button designation cards for easy operation upon request. It is line and battery powered and requires no AC connection or batteries. One year limited warranty.

Plantronics T10 Headset Telephone

The T10 is a complete headset phone, offering your staff the convenience and increased productivity of hands-free operation. Convertible noise-cancelling headset can be worn over the ear, or over the head. Base has volume and tone controls, flash, redial, ringer volume, mute button with indicator light, on-line indicator light, and headset stand. It is line powered and requires no AC connection or batteries. One year limited warranty.
